Stepan Papazyan

Curriculum Vitae
2024

Employment

HDI Vesicherung AG
part of Talanx Group

since 2024 **System Architect**

At HDI AG, I design and implement standardized financial architectures for international processes. I support agile teams, uphold software architecture standards, and integrate new technologies.

K-Businesscom AG
(formerly known as Kapsch BusinessCom AG)

2020-2024 **Team Lead**
Front-End Innovations

Participation in the presales phase by supporting the sales and software architects. Regular resource planning and recruitment. Setting and implementing short-term and long-term goals for company-wide improvements. Preparation and support regarding the individual career plans of team members. Training of team members. Preparation and support in the application process.

2019-2020 **Senior Developer**

Specialized in Angular and Vanilla JavaScript, I developed for both B2B and B2C projects across a variety of product domains. My role involved close collaboration with international, cross-functional teams, utilizing agile methodologies to enhance project efficiency and innovation. This approach facilitated the delivery of user-centric solutions in dynamic business environments.

Profile

With over 15 years of experience in web development, I am a passionate and innovative Lead Developer and Team Lead. I possess an excellent understanding of how to combine technology, design, teams and business requirements to create solutions that meet the needs and expectations of both users and stakeholders.
